NEW ADVERTISEMENTS

Association of Regular Registered Resident Physicians, No. 730 Penn avenue.

Dr. Orr invites the friends of the hundreds of patients he has cured of extarrh, and dyspensis during the last year to call and allow him and his associate physicians to prove that they are what they claim to be, regular registered resident physicians, who are competent to do all they claim, and that they are not travelers who stop in our city for a few weeks or months.

months.

This association is founded for the protection of those who are being deceived by spurious institutes and high-sounding, but hollow titles, all of which is no proof of ability or legality.

We invite all persons suffering from chronic diseases, medical or surgical, to call for consultation, free, no matter if you have been pronounced incurable by some traveling doctor. We do not turn away all persons not easily ented.

AT 8:30 SBARP,

amid the groves and orchards at GROVE-LAND.

Bring your wives and children. Company will be select and the day one of pleasure and profit to all who participate.

300 large, handsome, shaded lots overlooking the Ohio river, extending to the principal street of Beaver, on line of three railroads and electric street railway, in view of the magnificent high bridge spanning the Ohio at the outlet of the Beaver river; surrounded by handsome, growing and populous towns. These lots are, par excellence, the choicest ever within the reach of home seekers and investors. They are surrounded by residents, variously employed in Pittsburg and Allegheny, who, from the heated, crowded cities can reach their homes as quickly and more comfortably than can the majority of the population of the nearby suburbs.

Lunch served free on the ground, and every arrangement perfected for the comfort and pleasure of excursionists.

CONFINED IN A CELL.

Peculiar Method of Punishment at Hampton Indian School.

A CHANGE HAS BEEN ORDERED.

The President Enjoys His Little Trip Down

the Billowy Bay. HE FOUND SOME TIME TO GO TO CHURCH

Mone of the Sailors of the Wrecked Vandalia are Suffering for Money.

An investigation has been made into the manner in which the Indian school at Hampton, Va., has been conducted. A punishment cell was discovered, which is the reverse of what it should be. President Harrison had a very pleasant voyage down

WASHINGTON, June 17 .- Some time ago the Rev. Dr. T. S. Childs, of this city, at the request of Secretary Noble, went down to the Hampton Indian School and quietly investigated complaints in regard to the management of the Indians which had been brought to the attention of the Government. Dr. Childs' report, which has not yet been made public, was to the effect that the food given the Indian boys was not good, and that the Indians complained that contributions made for their benefit were used for the ben-

efit of the negroes of the school. Dr. Childs also animadverted severely upon the use of a dungeon or guard-house. This cell, he said, is only 5 feet 5 inches long, 3 feet 8 inches wide and 9 feet 6 inches high. It has no window or means of light whatever, and when the doors's closed the cell is absolutely dark.

THE PUNISHMENT CELL. The only ventillation is some small holes in the side wall at the top of the cell, and which the side wall at the top of the cell, and which do not connect with the outside air. A little straw comprised the furniture of the room. The Indian boys, Dr. Childs reported, were confined in this cell for from a few days to more than a week at a time, and some of the officers of the institution said the stench was awful when a boy was removed.

General Clinton B. Fisk, Chairman of the Board of Indian Commissioners, secured a copy of this report and sent two members of the Board to Hampton, who made a report directly contradictory to that of Dr. Childs. Dr. Childs has written a letter to General Fisk in which he makes some sharp criticisms of the Board of Indian Commissioners.

tion, and the Indians sent a representative of the school to this city to return thanks for their improved condition.

As to the immuring of Indians in the dungeon, he says that he is amazed that the Board of Indian Commissioners, which has no reason for existence unless it stands between the Indians and wrong, can defend this mode of disciplining Indian children. It is understood that Secretary Noble has decided that the cell punishment shall not be inflicted hereafter.

THEY ARE NOT STARVING.

None of the Wrecked Sumonn Seamen Need be Without Money. WASHINGTON, June 17 .- Relative to the bublished statement that the seamen of the Vandalia have been discharged in San Francisco without pay, and are dependent upon charity, it is said at the Navy Department that no such men have been discharged, except in cases of a few special service stewards, cooks, servants, etc., living on the Pacific coast. cooks, servants, etc., living on the Pacific coast. The seamen were transferred to a receiving ship upon their arrival at San Francisco. The accounts of the Trenton and Nipsic were saved so that there has been no difficulty in issuing money to the crews of those ships. The Vandalla's accounts were lost. New rolls were, therefore, opened, duting from the disaster, and there has been issued money accrued to the credit of the men since that date. Amounts the project to the week must undergo adjustthe credit of the men since that date. Amounts due prior to the wreck must undergo adjustment by the accounting officers of the Treasury. It is said at the department that if any of the Vandalia's men are "knocking about San Francisco" as described, they must be stragglers without leave, or men "on liberty" amusing themselves according to their wont. The law authorizes a settlement with enlisted men, in case '.' a casualty whereby a ship may have been sunk together with rolls and papers, based upon the last quarterly accounts received at the Treasury; and also provides for paying to petty officers, scamen and others not officers, whose personal effects have been lost, a sun not exceeding \$60 each.

THE PRESIDENT'S TRIP. He Had a Very Pleasant Time on His

Voyage Down the Bay. WASHINGTON, June 17 .- The President and secretaries Blaine and Windom returned to Washington this morning at 10:30 from their trip down the Potomac in Postmaster General Wanamaker's yacht Restless. The vessel anchored off St. Marys, Md., all day Sunday, and the President and party went ashore in the morning and attended divine service at St. Mary's P. E. Church, where a large class of communicants was confirmed by Dr. Paret, Bishop of the Diocese. The President's visit was entirely unexpected, but was all the more gratifying to the church people on that account. After the services the President accepted an invitation to visit the St. Mary's Female Seminary. During the day the President received a visit from a number of residents of Leonardtown, who wanted to make amends for their seeming lack of courtesy to the President on the occasion of his visit to that town on a previous Sunday.

The President's yacht weighed anchor last night, and came direct to Washington. The President said to-day that he had had an exinchored off St. Marys, Md., all day Sunday,

of the Navy has received the report of Commander Whiting on the Yantic and Galena, The Yantic was damaged in the hurricane off the coast of Delaware lately. The Board finds that the hull is not strained. The deck and fittings are in bad condition, and it is recommended that the vessel be docked to allow of an examination of her copper sheathing. The repairs will, it is estimated, cost \$14.540, and will require ten weeks' time. This sum is 7 per cent of the estimated cost of a new vessel of like size and material. In the case of the Galena, which is lately in from Haytian service, the estimated cost of repairs is placed at \$6.671, which is 2 per cent of her value, and will place the vessel in shape for six months' service. To fit her for efficient sea cruising would require some extensive repairs to her hull, involving a total expense of 6½ per cent of the value of the ship. GRIST FOR THE GHOULS. One of the Wholesale Robbers of Floor Sufferers Arrested-He Personated

an Officer and Robbed Other Robbers - Capital in Misfortune IFROM A STAFF CORRESPONDENT. Johnstown, June 17 .- A man was arrested this afternoon for impersonating an officer and searching houses on Prospect Hill without authority. For the past week or more detectives have been making a quiet and diligent search on the hill for property supposed to have been stolen after the waters had subsided, and also on the lookout for large quantities of pro-visions obtained from the various relief com-mittees. The first two or three days after the

flood there was a large amount of valuables re covered from the wreck and hidden in places of safety. All kinds of household goods, pro-visions, etc., were also stolen from the wrecked Detectives were given authority to visit all

visions, etc., were also stolen from the wrecked stores.

Detectives were given authority to visit all the houses in that neighborhood, and search them for the stolen goods. In the majority of cases they met with resistance; but, notwithstanding the odds they labored against, they succeeded in reclaiming several carloads of property of different kinds. Some of the stuff consisted of provisions and clothing furnished by the relief committees.

For several days a man has been visiting houses where goods were secreted. Showing a badge, he would selze the property wherever he found it. The authorized detectives, who were conducting the search, concluded that he was an imposter, and arrested him. It was found thathe lived in Johnstows, and, together with several 'pals' had succeeded in "working" the receivers of the stolen goods. He would get the stuff and send it away with the other men. The latter would take the stuff out in the country and self it. They made most of their money as flour, some of it selling for as high as 55 per sack. On the Frankstown road, which leads from Main street to Hollidaysburg, there has been a famine in this product. The farmers there do not grind wheat or rye, and have been in the habit of getting their flour in Johnstown. They have fed so many people who were fleeing from the stricken city that they were entirely out of flour, and could not get any more. By selling the flour to them at good prices the men were enabled to drive a lucrative business with the stolen goods. In conversation with your correspondent to-day. Detective Sharpe, of the Pennsylvania Railroad, said:

'There are any number of people up their on Prospect Hill, who have their cellars full of stuff that they stole and begged after the flood. Hundreds of people are coming here daily for provisions, etc., who are living better now than they ever dreamed of. Why, I know any number of them who never had half enough to eat, on account of spending their money for whisky. Since the flood, when people have been supposed to be That there were things needing correction in the management of the Indian school at that they were corrected after his investiga-

The Late PROF. PHELPS.

The above is a portrait of the late Prof. Edward E. Phelps, M. D. LL.D., of Dartmouth College. He was a strong, able man, who stood high in the literary and scientific worlds. It is not generally known, but it is, nevertheless, the truth that Prof. Phelps was the discoverer of what is known to the Medical Profession and Chemists universally as Paine's Celery Compound, unquestionably one of the most valuable discoveries of this century. This remarkable compound is not a nervine, an essence, a sarsaparilia or any devised article, but a discovery, and it marks a distinct step in medical practice the treatment of nervous complications, and that greatest of ajl modern diseases—Paresis. It has been freely admitted by the best medical talent in the land, and also by the leading chemists and scientists, that for nerve troubles, nervous exhaustion, insomnia, debility, senility, and even the dreaded and terrible Paresis, nothing has ever been discovered which reaches the disorder and restores health equal to this discovery of Prof. Phelps.

Paine's Celery Compound is now being prepared in quantities, and can be procured at any reputable druggist's. An attractive bunch of celery is to be found on every wrapper. It has become specially popular among professional men, mind workers, ladies burdened with exacting social duties and frequences of the leading clubs. The Late PROF. PHELPS.

Cured of Catarrhal Asthma. Mrs. Alice Brownhill, an English lady, but who has lived in this country for nearly two years, has for the past ten years been badly afflicted with asthma. It was produced by a catarrhal poison in her system that was slowl but surely doing its deadly work. A part of the secretion that formed in her head was discharged through her nose, and a part dropped down the back part of her throat, and which, setting up an irritated condition in her lungs, produced asthma. She coughed, and her breath produced asthma. She coughed, and her breath at times was very short. She had pains under her shoulder blades, and also over her eyes. Her appetite was very poor, and the little food she was able to eat gave her stomach much distress and belching of gas, and every morning she would vomit up her food. As has been stated, her breath was very short, and every time she caught a cold she would have to be boistered up in bed during the night in order to breathe. When she applied, last April, to the physicians of the Catarrh and Dyspepsia Institute for treatment, the wheezing in her lungs could be heard all over the house. On May 25 she says "that my catarrh and asthma have been entirely cured by the physicians of the Catarrh and Dyspepsia Institute. I hereby sign my name.
